

SOURAV PK

Python Full Stack Developer

Kannur, Kerala, India | +91 8590606795 | sourav08leaders@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFILE

Python Full Stack Developer with hands-on experience building secure, end-to-end web applications using Python, Django, MySQL, HTML5, CSS3, JavaScript, and Bootstrap. Skilled in role-based authentication, Django Channels, and database management, with a portfolio of live projects showcasing real-time features, clean UI, and role-based access. Practical exposure to AI-assisted development and prompt engineering for accelerating coding, debugging, and documentation workflows. A quick learner and effective communicator with strong problem-solving ability, looking to contribute to a product-focused development team.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap

Backend Development: Django, Authentication & Authorization

Databases & Data Handling: MySQL

Developer Tools: Git, GitHub, Figma, VS Code

Additional Technologies: Django Channels, Power BI, Generative AI & Prompt Engineering

PROJECTS

CampusRide – Campus Ride-Sharing Platform (Ongoing)

Technologies: Python, Django, MySQL, Django Channels, Bootstrap, HTML, CSS, JavaScript, Google Maps / OpenStreetMap

- Developed a secure ride-sharing platform for verified students and faculty, with role-based access for Admin, Driver, and Student.
- Implemented live GPS tracking with real-time location sync between driver and rider, along with QR-code boarding verification.
- Built in-app chat and SOS alerts to keep communication and safety features running smoothly during rides.
- Designed a responsive interface using HTML, CSS, Bootstrap, and JavaScript, with backend logic powered by Django and MySQL.

Garage Guide – Vehicle Service Booking Platform

Technologies: Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a service-booking platform connecting vehicle owners with certified mechanics for maintenance scheduling and digital payments.
- Designed separate Admin, Worker, and User modules for managing bookings, service records, and customer interactions.
- Built a responsive and user-friendly interface using HTML, CSS, Bootstrap, and JavaScript, with Django and MySQL powering the backend.

Personal Developer Portfolio

Technologies: HTML, CSS, JavaScript

- Built a personal portfolio website to showcase projects, resume, and background, live at sourav859060-bit.github.io/souravport.

EDUCATION

Bachelor of Computer Applications (BCA) — 2026 (Completed)

Leaders College

Python Full Stack Development Course

SMEC Technology

Diploma in Office Administration — 2025

Leaders College

CERTIFICATIONS

- Introduction to Generative AI Concepts — Microsoft
- AI for Business Professionals — HP
- AI Tools and ChatGPT Workshop — BE10X
- Data Analytics using Power BI Workshop — Tech Tip
- SOAR – AI to Acquire — NCVE
- Prompt Engineering
